NORTHERN WISCONSIN DEVELOPMENT.

Wisconsin people who are interested in the development of Northern Wisconsin are noting the difference in the attitude of the two leading political parties toward that important and praiseworthy consummation. Both the Republican and the Democratic candidates, at their recent conventions in the Capitol, were asked to put something into their respective platforms promising encouragement to the propagation of new settlers. The republican candidates adopted a satisfactory plank, and the normal result of this action will be the re-establishment in some form of the Wisconsin Immigration Bureau, which was abandoned five years ago, though its opportunities for usefulness had been by no means exhausted.

The Democratic candidates declined to add the plank to the platform which had been adopted by the extralegal Democratic state convention held last summer in Milwaukee. The Madison Star-News expresses the opinion of Northern Wisconsin people regarding this action of the Democratic candidates as follows:

Can the Democratic party of this state expect to get any votes in Northern Wisconsin this fall, after the action of the state convention at Madison? There are the candidates who will come to Northern Wisconsin and ask for votes within the next few weeks? Have these Democratic gentlemen never been to a state fair and seen the products of Northern Wisconsin soil? Had they ever taken a trip through this half of the state

they would not be afraid to write any one to come here to settle. Taylor Co. took first and second place at the state fair in different years, and we would like to know that there is very little better soil to be found anywhere. We are glad that the Republican party, through its representatives convened in Madison the same day, had the wisdom to see the unfulfilled opportunities that today exist in Wisconsin. May our splendid state continue to develop and improve until every section of land is properly tilled! That party which assists in the consummation of this plan is entitled to the confidence of the people.

Not only the people of Northern Wisconsin, but the people of other sections of the state, particularly those of Milwaukee, the State's commercial metropolis, are interested in the settlement and development of the northern half of the state. Men who have established themselves there within the past ten years have built up homes in the wilderness, have acquired property which is valuable now and will become still more so in years to come, and help with their families to increase the mutually profitable commerce between the cities of Wisconsin and the interior.

It was just like the Republican elephant to take up this issue, and just like the Democratic donkey to snuff it and walk off. The Republican party has always been progressive and constructive, while the Democratic party has shown no bent in either of these directions since the period preceding the Civil war.—The Evening Wisconsin.

A BEAUTIFUL CHARITY.

Frederick Layton is Milwaukee's Grand Old Man.

No other citizen of Milwaukee has ever shown a better, truer public spirit than he. He is always ready to help every public enterprise. There need be no urging, no solicitation. His check is forthcoming immediately. He is always among the first to lend a hand. And in all his generosity and public spirit he is cordially seconded by Mrs. Layton. She, like her husband, is deeply interested in every movement which will tend toward a better Milwaukee.

Mr. and Mrs. Layton's intention of building a hospital for those afflicted with incurable diseases is simply one more illustration of their admirable public spirit. Such an institution will prove of immeasurable good to many helpless, hopeless men and women who are suffering from incurable diseases. It is a splendid philanthropy; a beautiful charity; one that is worthy of Mr. and Mrs. Layton.

For this and many other manifestations of public spirit the people of Milwaukee are under deep and lasting obligations to these loyal friends. They stand for our highest type of citizenship.—Milwaukee Journal.

SCHOOL BOARD MEETING.

At the regular school board meeting held Monday evening, Oct. 1, it was moved and carried that the old dry closet system be removed from the South Park School and a new up-to-date flushing system be put in its place. This need was felt by the board two years ago and some of the members studied the advisability of putting in a sewer system running to Pelican River, but now the new sewer system extends to the wall of the building. D. Joslin, Warren Reed and E. O. Brown were appointed as committee to oversee the putting in of the new system.

Last week's New North advocated that the sanitary conditions at the South Park School demand the new closet system at once.

It was moved and carried that the committee on teachers be given permission to employ a new High School assistant.

Up to date the High School has registered one hundred fifty-eight pupils, twenty-one more than all last year and there will be an increase in attendance yet. The only criticism of the High School inspectors of a year ago was that the classes were too large and there must be an added assistant another year to give the school its full honor. How much more the teacher need with an added attendance of over twenty pupils.

LUMBAGO AND SCIATICA

ST. JACOBS OIL

Penetrates to the Spot Right on the Spot.

Price 25c and 50c

"Tips" Given by Monarchs.

King Edward disburses a good deal of money in tips every year. Each visit to one of his subjects costs him from \$1,000 to \$3,000. At shooting parties the gamekeepers get \$15 each and the gamekeepers \$25 or \$50 each. When he goes abroad he does still better. On the occasion of his recent visit to the Kaiser he gave away nearly \$10,000 in this way. When the czar visited England he left behind a check for \$15,000 to be distributed among servants who attended him.

Pauperism in British Isles.

Indoor pauperism is said, in the British official record, to have grown rapidly in England and Wales since 1900. During the last eleven years the cost of indoor relief has increased 56 per cent, while the increase in the number of paupers has been only 26 per cent. The annual cost of maintenance per head increased from about \$25 in 1905 to about \$40 in 1915. There has also been a large increase in the average cost of maintenance of workhouse inmates.

A KENTUCKY WOMAN

How She Gained Fifteen Pounds in Weight and Became Well by Taking Dr. Williams' Pink Pills.

Women at forty, or thereabouts, have their future in their own hands. There will be a change for the better or worse, for the better if they take Dr. Williams' Pink Pills, for the worse if they do not. Mrs. D. C. Williams, of Hartford, Ky., writes as follows concerning the difficulties which afflicted her:

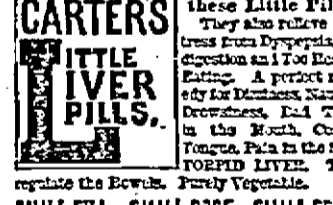

"I was seriously ill and was confined to my bed for six or eight months in all, during two years. I was thin, nervous, rheumatism, my stomach would not take food, my kidneys did not work, my liver was inactive, my heart beat was very weak and I had dizziness or swimming in my head and nervous troubles."

"I was under the treatment of several different physicians, but they all failed to do me any good. After suffering for two years I learned from an Arkansas friend about the merits of Dr. Williams' Pink Pills and I decided that I would try them. The very first box I took made me feel better and when I had finished the second box I was well. I began to eat, my stomach was better, and I have since continued in the best of health. I have recommended Dr. Williams' Pink Pills to many people on account of what they did for me, and I feel that I can't praise them too strongly."

Dr. Williams' Pink Pills restored Mrs. Williams to health. She is now a healthy, happy woman, and she is able to make new blood and when the blood is in full vigor every function of the body is restored, because the blood carries to every organ, every muscle, every nerve, the necessary nourishment. Any woman who is interested in the care of Mrs. Williams will want to know that Dr. Williams' Pink Pills, which is free on request.

All druggists sell Dr. Williams' Pink Pills, or they will be sent by mail postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by Dr. Williams Medicine Co., Schenectady, N. Y.

THE HISTORY OF POLICEMAN FLYNN

BY ELLIOTT FLOWER

HE SECURES A CONVICTION.

"If I had me w-a-y," said Policeman Barney Flynn, with conviction, "I've been in the po-lis magistrates in the city w'd be out carryin' a locust fr to prep-a-re them fr their juties on the blinch."

"Locust" being a technical name for a policeman's club, the full import of this remark must be readily apparent, and Policeman Flynn had good reason for making it. His beat at the time lay in a district where there was a most troublesome gang of hoodlums. Among them were some who had passed from what may be termed "hoodlumism" to actual crime, although of a somewhat petty nature. Just on the verge of manhood—possibly about 15 years of age—they lived

They Played Tricks on Him.

In that atmosphere of lawlessness where youths develop early, and they not only led the younger ones in a sort of general rebellion against law and order, but they were personally guilty of many troublesome and occasionally costly depredations. Naturally, they made life a burden to Policeman Flynn. They played tricks on him, they got up mock fights to fool him, they teased at him, and finally they began to amuse themselves by throwing stones at him whenever they could do so with reasonable safety. He knew that they were responsible for the minor crimes of which complaint was frequently made, but he lacked evidence, and it was not until he had narrowly escaped being bruised by half a brick that he finally took two of the ringleaders to the station.

"What's the charge?" asked the police magistrate the next morning.

"M-m-m, well, they's a bad lot, an' they was heavin' r-r-rocks at me," answered Policeman Flynn.

"Did they hit you?" demanded the magistrate. And when the policeman admitted that he had succeeded in dodging the missile, the magistrate added: "Oh, well, boys will be boys, and we mustn't be too hard on them. If they 'd hit you it would be different. Discharged."

"Look at that, now," commented Policeman Flynn. "A big chunk in a brick come right fr me head, an' I duck, an' that lets them go free. 'T was fr me, I suppose, to have me head split open fr to make a case. Oh, 't is a fine thing, is th' law in th' magistrates. 'I have ye ye-er head with ye?' says his honor. 'I have,' says I. 'Ye have no business to,' says he; an' then he says, 'This day-and-night is discharge fr th' reason that Officer Flynn comes into court with his head on, thereby violatin' th' law.' I'd like to have a ton in that law fr to throw in th' river. Ye've got to have th' evidence, a case-load in it. 'T is like this: A fellow comes cr-creepin' up behind a man-an with a knife in his ha-and. 'T is me jay,' says I to meself, 'fr to arrest him.' 'Wait,' says th' law to me, 'fr he'll kill th' man-an, an' th' law yells ha-a-a good case. Oh, 't is a great thing to know th' law.'"

Fortunately, however, these remarks were not made in the hearing of the court, and Policeman Flynn returned to his beat. Naturally, his troubles were not lessened by his failure to secure a conviction, for the gang became bolder and more demonstrative than ever. But the policeman patiently awaited his opportunity, and before long he had the same two in custody again, with what he believed to be a good case against them.

"T was like this," he explained in court the following days. "Th' door in th' grocery is open, an' th' two prisoners is r-runnin' aw-a-y. I follies thim an' stumbles over a ham, which they dropped."

"Did you see them drop it?" asked the boys' lawyer.

"I course not," answered Policeman Flynn, "but 't is not to be supposed th' ham was alked down th' alley be itself. They's a lot fr fruit, too, leadin' all th' w-a-y to where th' b-yes is r-rounded up, an' they ha-a-a a pocketful fr change taken from th' till."

"How do you know it was taken from th' till?" demanded the lawyer.

"Because 't is not in th' till now," replied Policeman Flynn.

"Oh, well," said the judge, at the conclusion of the hearing, "there is nothing to show that they are the ones who dropped the ham and the fruit, and they give a very plausible explanation of the possession of so much small change. The evidence is purely circumstantial, and to send them up would be only to start them on the downward path. I'll give them another chance."

"St-art thim down be stadin' thim up," muttered Policeman Flynn to himself, as he left the courtroom. "Oh, 't is a ham-runs ma-an th' judge is. 'T is a sha-ame he's not eddica' a com-p-a-ner, it is that. St-art thim up, 't is thim same la-ads that's r-radin' a tradin' bi-skele on th' down-and-pa-th now with th' br-rake br-rake."

CURED OF GRAVEL.

Not a Single Stone Has Formed Since Using Doan's Kidney Pills.

J. D. Dougherty, music publisher, of Suffolk, Va., says: "During two or three years that I had kidney trouble I passed about 25 pounds of gravel and sandy sediment in the urine. I haven't passed a stone since using Doan's Kidney Pills, however, and that was three years ago. I used to suffer the most acute, scovy during a gravel attack, and had the other usual symptoms of kidney trouble—lissitude, headache, pain in the back, urinary disorders, rheumatic pain, etc. I have a box containing 14 of these pills, and I passed, but that is not one-quarter of the whole number. I consider Doan's Kidney Pills a fine kidney tonic."

BEES CLOSED A MINE.

Swarmed in Millions and Men Were Unable to Work.

There are instances in great number where mining operations were temporarily suspended by a shortage of funds or by water flooding the property, but it remained for Mohawk, a small station along the Southern Pacific, to furnish a new cause which is unique in the history of mining. The company affected owns the Red Cross mines in the Mohawk mountains. Millions of bees, attracted by the water at these mines and forced from their lives in the mountains by the drought, took possession of the water supply, and their numbers were so great that it was found impossible to drive the swarms away. Consequently the mines have been shut down until the rainy season sets in, when it is hoped the bees will return to their mountain homes.—Sacramento Bee.

BEGGAR WORE SILK HAT.

Attire of Mendicant Surprised Visitors in London.

The visitors from the country turning from a London railway terminus into the street on Saturday stopped to gaze at a man standing in the gutter. "Look," said one, nudging the other, "even the beggars wear 'topers' in London!" It was true in this case, at any rate.

Here was a man of about five and thirty, dressed like a tony clerk, in a good morning coat, and trousers, round boots, clean starched shirt and collar and a well-fitted tie. He was crowned with a silk hat, well brushed and lined. But there was in the conventional attitude of the curbside merchant, one foot on the pavement, the other in the gutter. One hand held out for sale half a dozen boxes of matches, the other invited alms.

A man keeps a nice little place in the country from the profits of his pitch on the pavement in the Strand, but his workday clothes would not fetch as much as this man's hat cost to him.—London Evening Standard.

BRAVED ANGER OF KING.

Lafayette Flaunted Liberty Medal in Face of Louis.

Shortly after Lafayette's return to France from his second sojourn in America, he was at Versailles, where the king was about to review a division of troops. Lafayette was asked to join in the review.

He was dressed in the American uniform, and was standing by the side of the Prince de Condé, when the king, in his tour of conversation with the officers, came to him, and after speaking on several topics, asked him some questions about his uniform and the military costume of the United States. The king's attention was attracted by a little medal attached to the general's coat, and he asked what it was.

Lafayette replied that it was a symbol which it was the custom of foreign officers in American service to wear, and that it bore a device.

"And what is the device upon yours?" asked the king.

"My device," said the young general, pointing to his medal, "is a liberty pole standing on a broken crown and scepter."

The king smiled, and with some pleasant reply to the republican propensities of a French Marquis in American uniform, turned the conversation into other channels. Condé looked grave, but was silent.—The Sunday Magazine.

RIGHT HOME.

Doctor Recommends Postum from Personal Test.

No one is better able to realize the injurious action of caffeine—the drug in coffee—on the heart, than the doctor.

When the doctor himself has been relieved by simply leaving off coffee and using Postum, he can refer with full conviction to his own case.

A Mo. physician prescribes Postum for many of his patients because he was benefited by it. He says:

"I wish to add my testimony in regard to that excellent preparation—Postum. I have had functional or nervous heart trouble for over 15 years, and part of the time was unable to attend to my business."

"I was a moderate user of coffee and did not think drinking it hurt me. But on stopping it and using Postum instead, my heart has got all right, and I ascribe it to the change from coffee to Postum."

"I am prescribing it now in cases of sickness, especially when coffee does not agree, or affects the heart, nerves or stomach."

"When made right it has a much better flavor than coffee, and is a vital sustainer of the system. I shall continue to recommend it to our people, and I have my own case to refer to." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in page.

BABY'S TORTURING HUMOR.

Ears Looked as If They Would Drop Off—Face Mass of Sores—Cured by Cuticura in Two Weeks for 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away; her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents. Mrs. George J. Steese, 791 Colburn St., Akron, Ohio."

WHO PAID FOR THE DRINKS?

Endless Chain Operated by Thirsty Men on the Mexican Border.

"Now, here is the best yarn of the lot and a good one for the Sunday paper to print," said the man with the albat in his whiskers, when he had settled down in the hotel lobby after a long day on the rubberneck wagon.

"Several years ago American silver coin in Mexico was on the same basis as Mexican silver was at that time and still is in the states; it passed at half its face value. Drinks in El Paso and in Juarez, the Mexican town across the line, were a bit apiece or 12½ cents, as you customers would say."

"In those palmy days a citizen of El Paso could go into a drinking emporium and buy a drink, paying for it with an American quarter. The bartender would hand him back a Mexican quarter, which was, of course, worth 12½ cents in Texas."

"Then with this Mexican quarter in his hand the citizen could cross the bridge to Juarez and there buy another drink, laying his Mexican quarter on the bar."

"If the Greaser barkeep should give him in change an American quarter worth 12½ cents in Mexico the joyous citizen could return to Uncle Sam's back yard and repeat the process."

"Now, the question is: Who paid for those drinks?"—N. Y. Sun.

THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

Genuine—Syrup of Figs

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

REPUBLICAN PLATFORM.

The Republican platform of this state, as published in this issue, is a strong document. It takes up the several great questions of the day and handles them in the interest of the people and the beauty about the Republican platforms of this state during the past few years is they have been considered as pledges to the people, not something to be used as campaign documents, never heard of again.

HONOR A WISCONSIN MAN.

Dr. Richard Fischer, chemist for the Wisconsin dairy and pure food commission, has recently been appointed as chairman of the committee on standard for purity of food products of the Association of State and National Food and Dairy Departments. The appointment honors not only Dr. Fischer but also the Wisconsin dairy and food commission.

W. D. CONNOR AS STATE CHAIRMAN

Was it wise on the part of the Republican candidate for Lieutenant Governor to use all his strategic powers to become chairman of the Republican State Central Committee? It is well known that he opposed some of the candidates now running on the state ticket. He, himself, is a candidate on the same ticket, can he work with equal ardor for all candidates. Then there is a general feeling that Mr. Connor is ambitious, should he have the undue advantage over other Republicans of holding a state office and at the same time have a complete mailing correspondence with all the voters of his party?

Instances have been rare in which a man has held a state office and at the same time kept hold of the state machinery for manipulating his party in his own behalf.

Mr. O'Neill former Governor of New York, is a conspicuous example. Today, he is deposed and has left no other record after a long public career than that of a former state boss. Has Mr. Connor made a serious mistake? It remains to be seen.

U. S. WORK IN CUBA.

Secretary Taft, Provisional Governor of Cuba acting under the direct and specific instruction of President Roosevelt, has announced to the Cubans that the provisional government he has found is necessary to establish in the interest of all concerned "will be maintained only long enough to restore order, peace and public confidence" and to hold elections "to determine on those persons upon whom the permanent government of the republic should be devolved."

The republic continues to exist, and her own duly elected sons are "permanently" to govern her. The United States has not declared Cuba unit for self government, has not pronounced her sovereignty forfeited, has not hauled down her flag nor raised its own over anything Cuban.

PRESIDENT PALMA

Senor Quesada, the Cuban Minister at Washington has resigned. He expresses the greatest attachment and sympathy for President Palma and states that after spending forty of the seventy years of his life, fighting for Cuban liberty, that President Palma is penniless, having used not only the best energies of his life, but also his private fortune to aid in the cause of liberty. If he decides to return to the U. S. and spend his declining years, he will find many friends to assist him; those who know of his loyalty and patriotism through years of imprisonment and hardship, when during the long Spanish-Cuban wars, he, as proclaimed President of the Cuban Republic, was obliged to escape to this country, where he taught school in a little N. Y. village, until the time came when he could return to his beloved country and take the honored position so freely given him. Whether or no, he was the man for the place, whether he was unfortunate in his cabinet and close advisers is a question. No one can doubt President Palma's sincerity and patriotism for his native land.

The Woman's Club of this city held its first meeting Tuesday, Oct. 2nd. Three new members were received into the Club. The President, Mrs. E. A. Edmonds, who was unable to attend, sent a written address in which, she urged upon the members, co-operation, enthusiasm and hard work to make this year the most profitable and enjoyable one in the history of the Club. The program

for the afternoon was as follows:

Music—Song—Mrs. Fawcett Early French Art of the XV Century Mrs. J. J. Reardon.

The beginning of Official Patronage In XVI Century—Miss E. Brown Italian Influence in XVI Century Mrs. R. C. Dayton.

Music—Song—Helen Lewis After the program refreshments were served.

Mrs. S. H. Ashton and Mrs. R. R. Lewis as delegates will represent the Woman's Club of this city at the Wisconsin Federation of Women's Clubs, which holds its tenth annual meeting at Wausau, Oct. 10-11-12.

Mrs. S. S. Miller and Mrs. E. G. Spuler are delegates from the Monday Club.

It is expected that a large number of our Club ladies will attend the convention; the railroads offer a reduced rate of one and one-third fare for round trip.

RESOLUTION.

Resolved by the mayor and common council of the City of Rhinelander that the following be and is hereby declared the standard for all sidewalks hereafter constructed in the City of Rhinelander:

Side walks on the following named streets or portions thereof to be built with cement and to extend from the property line to the street curb. Brown from Anderson to Frederick; Stevens from King to River; Davenport from Stevens Street to the Bridge; Anderson from River to Thayer; King from Brown to Stevens; River from Brown to Anderson and Thayer from Anderson Street to the Soo Depot.

Side walks on any other streets in said City to be five (5) feet in width and to be built of cement. Provided the Board of Public Works shall have power to authorize, in writing, the use of plank instead of cement, in the construction of walks in the lot 2nd 3rd and 6th wards. It deemed necessary or desirable in their discretion.

Look Into A Furnace Before You Buy It

Then you will not buy one that will need looking into afterward. Don't buy one until you have thoroughly investigated the

ROUND OAK FURNACE

It is air-tight and consequently never leaks gas, smoke or dust, and perfectly fitting draft and damper permit of the most accurate regulation.

The Round Oak Furnace burns any kind of fuel—hard or soft coal—wood or coke. All the heat generated goes directly to the room, none up the chimney or into the cellar.

Maintains a perfectly uniform fire, burning at any desired speed. This feature together with the fact that no heat is wasted make it the most economical of all furnaces.

Write for our interesting Furnace Book—“Warmth and Comfort.” It is free and will be of value to everyone concerned with a heating problem. We will furnish heating of furnace, warm and cold air and all details. If you send us rough sketch of your home.

Good Clothes

That's what every young man wants, but few realize the significance of the term. They are too busy with other matters to find out why some clothes fit better, look better and wear better than others. The difference between "VIKING SYSTEM" young men's clothes and just ordinary clothes is remarkably apparent.

Every "Viking System" garment is the work of a man, who put into every part expert workmanship and individuality, which comes only with years of experience in tailoring young men's high-grade clothes. All styles are represented single and double-breasted.

We guarantee "Viking System" suits and garments in every respect. Look for the label—it's your safety.

THE CUBAN REVOLT.

American intervention in Cuba is declared certain. Marines landed in Havana to protect the treasury, and Secretary Taft will issue a proclamation creating himself provisional military governor, after which a further force of American marines will disembark.

The end came to the Cuban republic through the refusal of President Palma to withdraw his resignation and the action of the moderates in declining to attend the session of congress.

It is certain that a sufficient force of American troops will be maintained in Cuba to support the provisional government and to insure security to life and property pending the establishment of a stable government by the Cubans.

American troops are moving toward Cuba. Mobilization of the force will be at Newport News, Va., for the most part, although a part of the first expeditionary force to Cuba will be sent from New York and Tampa, Fla.

Advices received at the department of the military establishment of the government indicate that all is quiet in Cuba, and that the insurgents intend to lay down their arms. The probability is that the United States forces in the island will be landed only as a precautionary measure.

Some cases of yellow fever have developed in Havana and Secretary Taft is concerned lest the disease attack the troops which are to be assembled there. Maj. Keen, who has had an extended experience not only in Cuba but also in the Philippines, and is thoroughly familiar with the health conditions in Havana, will look after the health bureau.

Senator Quesada tendered to the provisional government of Cuba his resignation as minister to this country.

NO TROUBLE TO DISARM THE CUBAN INSURGENTS

Gen. Funston Declares Matters Will Move So Smooth and Rapid That It Will Take Much Less Time Than Was Expected.

Havana.—The work of disarming peacefully of the revolutionary forces in arms against the Cuban government is already practically under way, Brig. Gen. Funston, chairman of the disarmament commission, had two amicable conferences with Gen. Pino Guerra and Del Castillo and arranged a programme perfectly satisfactory to all concerned.

In fact, Gen. Funston said that the winding will be smooth and rapid, and that it will take much less time than had been anticipated.

The first landing of any considerable number of Americans took place Sunday night, when 450 marines came ashore from the squadron in the harbor. This force proceeded for Cienfuegos on a special train. It was explained that this movement was not made on account of any actual trouble in Cienfuegos, but for the purpose of exerting a calming influence on the local situation, which contains some possibility of a conflict by reason of the tense feeling existing between the government volunteers and the insurgents.

Bid Farewell to Palma. Sunday at the palace passed quietly and rather gloomily. There are as yet no signs of Secretary Taft's actual

will be deposited with the battalion commander, who will turn them over to the commission. The rebels will take their horses home, the animals which have been stolen to be returned later to the owners on proper identification.

In order to expedite the return home of the large number of revolutionists in Pinar del Rio province and avoid possible disturbances during the operation, a special train will be run from the point on the line nearest the rebel camps to San Juan de Martinez, the terminus of the Western railroad. Men and horses will be distributed at the intermediate stations.

The provisional government has no expectation that even a considerable number of the revolutionists will surrender their arms. Most of the weapons are the personal property of the men carrying them.

Start for the Provinces. The first of the disarmament commission have left here for Puerto Principe. Others will start for Santa Clara province on a special train, which will pick up the arms turned in at the various places on the way. As Santa Clara province contains the largest number of rebels in arms the

work there will be especially arduous. Gen. Guerra himself will assist in superintending the work of the return of his men to their homes after the forces in Pinar del Rio province have given over their arms.

Gen. Funston expects to remain in Havana in general charge of the work of disarmament. When this is completed he will take command of all the United States troops in Cuba.

Grateful to United States. Gen. Pino Guerra, speaking of the new situation in the island, said all the men of his forces were emphatically satisfied with the arrangements. He expressed the belief that the stability of the government was now assured and predicted that never again would there be a revolution in Cuba, thanks largely to the United States government for the land it had taken in the settlement of the difficulty.

While many of his men wanted to parade in Havana before dispersing, their commanders regarded this as unnecessary, and Gen. Guerra said there would be no demonstration that would permit of the possibility of a renewal of the previous ill feeling. Asked whether his men shared his contentment with the proposition to return quietly to their homes, Gen. Guerra said:

"The men under our commands will obey us. Those who do not certainly never were with us. The revolution is ended and we have won, so we are supremely content."

Del Castillo is Content. Gen. Del Castillo said: "We would have preferred a peaceful solution arranged, if possible, between the Cubans themselves, instead of intervention; but we are satisfied because the corrupt administration has fallen and an honest election can be depended on."

No Pay for Rebel Arms. The disarmament commission has decided that the rebels shall not receive payment for their arms, but each man will be given transportation and subsistence until he reaches home. The programme of disarmament is simply that one member of the commission accompanied by one or more representatives of the revolutionists will visit each command. The arms

work there will be especially arduous. Gen. Guerra himself will assist in superintending the work of the return of his men to their homes after the forces in Pinar del Rio province have given over their arms.

next year. We consider our fight has not been in vain. We have faith that the independence of Cuba is not endangered by American intervention, and, together with Gen. Funston, we have drunk a toast to President Roosevelt and the independence of Cuba."

Marines for Cienfuegos. The landing party of marines and bluejackets for Cienfuegos was made up of detachments from the Louisiana, New Jersey, Newark and Milwaukee. The men were all landed at the Captain of the Port's wharf in heavy marching order. They boarded 16 street cars, in which they were taken to Villa Nueva, where they were placed on board two trains of six cars each. Trains were carried for the battalions, and also three Colt guns. The two sections followed the regular through train, which left at nine o'clock.

The battalion attracted little attention, as the transfer was not looked for. For the present the distribution of marines will be as follows: At Sagua La Grande, 30; at Cienfuegos, 225 from the Dixie, in addition to those on their way to that city; guarding the treasury at Havana, 50, and one brigade to be stationed at Camp Columbia. The battleship Kentucky arrived here Sunday, bringing 200 more marines.

May Reinstated Cabinet Members. Gov. Taft has informed all the members of the Palma cabinet that he would appoint ministers in about ten days; in the meanwhile the substitutes are acting. It is believed that some of the ex-members of the cabinet will be reinstated.

Gov. Taft has sent a cablegram to Senator Quesada, the Cuban minister at Washington, requesting him not to press his resignation.

The disarmament of the government volunteers began here Sunday, when the Estrada Palma battalion of

Mobile, Ala.—Considerable disturbance was occasioned here when the announcement was made by the weather bureau that a second storm was present in the Yucatan channel.

Mobile is recovering rapidly from the effects of the recent hurricane. Affairs are beginning to assume a normal aspect, and business will be conducted as before, as soon as regular traffic is opened by the railroads. The Southern and Mobile & Ohio are running trains, but the Louisville & Nashville is still unable to maintain a schedule. The streets are being cleared of wreckage and street cars are running for the first time since Wednesday.

Death List Increases. The number of deaths as the result of the storm is increasing as returns come in from places heretofore inaccessible. The known dead number 79, with a possibility of 102. Four bodies not before counted have been found at Golden, and it is estimated that 22 lives have been lost from the oyster fleet around Cedar Point. This last estimate is not known to be accurate and is probably somewhat exaggerated for the reason that it includes among the dead every man aboard a fishing boat who has not been heard of since the storm. It is known some of the boats on which these men were have been driven ashore and it is entirely possible some of the crews managed to reach the shore.

Great Loss at Pascagoula. The situation along the coast to the west of this city is now fairly well known. At Scranton, Miss., several buildings were blown down. At Pascagoula Beach not a residence is left standing. The revenue cutter Winona, for which much fear was entertained, is now known to be safe.

The loss to the lumber interests alone by the storm will aggregate \$10,000,000. Tens of thousands of trees of the finest quality have been blown down, and the number of logs that have been carried out to sea or driven into inaccessible swamps is enormous. The great majority of trees that had been weakened by being tapped for turpentine were leveled and dealers in turpentine are gloomy over the outlook.

Huge Section Inundated. New Orleans.—Reports received from the Mississippi river delta show that hundreds of square miles of land were under 18 inches to four feet of water during the recent hurricane. The inundated tract lies 50 to 70 miles below New Orleans and is mostly inhabited by fishermen and oystermen. Messages from these villages said that up to that time several persons were still missing.

Gale at Hongkong. London.—A dispatch to the Daily Mail from Hongkong says: "The observatory signals gave warning of an approaching typhoon Friday afternoon, and by midnight a terrific storm was raging. The violent gale was accompanied by a phenomenal rainfall and was still blowing Saturday afternoon. The destruction of the typhoon of the 18th has been completed. The entire water front is again heaped with wreckage."

Large quantities of cane were uprooted in the marshes near the coast. This cane collected in great masses on the water and a party of eight fishermen near Buras, who were being driven helpless in a dismasted and overladen boat, report that they ran into a mass of cane, upon which scores of semi-amphibious and a few small land animals had taken refuge. The cane was packed so closely as to stop the passing of the boat, and thereby saved the fishermen from what appeared to be certain death.

New Consul at Lucerne. Lucerne.—The newly appointed American consul at Lucerne, Richard E. Mansfield, has arrived and will enter upon his duties soon. He replaces H. H. Morgan, who is going with his family to his post at Stuttgart.

Killed by Cream Separator. Chippewa Falls, Wis.—Jessie Mason, aged 16, of Sampson, died as a result of being scalped by a cream separator. She was operating the separator when the blades of her hair caught and wound around the shaft.

Bug Stops a Train. Cleveland, O.—A small bug tied up a Lake Shore train and caused great excitement along the road from West Park to Berea, by getting into the whistle and causing it to blow until all of the steam was exhausted.

Dunkards Going to California. San Francisco.—The Southern Pacific announced that 10,000 Dunkards are heading towards California from Iowa, Illinois, Missouri and Kansas. They are coming to form a colony in Butte valley, Shoshone county.

Steamer Mongolia Reaches Port. Honolulu.—The Pacific Mail steamship company's steamer Mongolia, which recently went ashore on Midway island and was subsequently found, reached this port Friday, accompanied by the United States army transport Buford, sent to the aid of the stranded vessel.

Gen. Picquet Promoted. Paris.—Brig. Gen. Picquet, the famous defender of Dreifas, has been promoted to the rank of general of division.

Earthquakes in Mexico. Tabasco, Mex.—Reports have just reached here, coming from various parts of the state, to the effect that many slight earthquake shocks have been experienced. These so far as known have caused little damage.

Two Killed by Train. Knoxville, Tenn.—W. H. Haynes, aged 40, and Dewey Haynes, aged 17, were instantly killed Monday, and George W. Cox fatally injured by a fast Southern passenger train at New Aliso, a small station near Morrisstown.

New Battleship in Commission. Boston.—With simple ceremonies, the United States battleship Georgia was commissioned Monday at the Charleston navy yard. Capt. Richard D. Haverford, U. S. N., took command of the ship.

Supervisor of Indian Schools. Washington.—Reuben Perry, formerly superintendent of the Navajo Indian agency, was appointed by the secretary of the interior supervisor of Indian schools.

Carries Cargo of Chinese. St. Johns, N. F.—An American yacht claiming to hail from New York, left Placentia Saturday, having aboard 42 Chinamen, whom it is supposed she is trying to smuggle into Canadian or American ports.

Railroad Makes Concessions.
After a hearing before the Wisconsin railroad rate commission, the special committees representing the Merchants and Manufacturers' association, of Milwaukee, different localities between Madison and Prairie du Chien and the Chicago, Milwaukee & St. Paul Railroad company, had an agreement regarding the improvement of passenger service on the Prairie du Chien branch of the Milwaukee road. This agreement apparently satisfies every one interested.

Improves Products of Farm.

E. W. Hunt, of Tekonsha, Mich., writes to the college of agriculture at the University of Wisconsin, stating that he has seen the circulars in regard to the short course of agriculture and states: "Last winter I undertook to feed a carload of western lambs in accordance with the teachings of the bulletin from the United States department of agriculture, entitled 'Feeding Mutton for Market.' The results were satisfactory as the sheep made good gains and topped the market at seven dollars per hundred."

State Chemists Make Tests.
According to the contract which the beet sugar companies have made with their respective patrons, the chemists at the factories who are to analyze the beets, furnished by the farmers are to be appointed by the director of the experiment station at Madison. The work of these chemists will be under the direct supervision of the chemical department of the experiment station, and the patrons of these sugar factories may feel assured that the testing of their

Jewelry for Coroner and
Jurymen.**

Kuneshia—Fred R. Foster, reported to be from San Francisco, committed suicide by shooting himself. Foster left a letter to the coroner in which he asked that the jury summoned to view his remains find a verdict of suicide due to dependency. He also asked that the coroner accept his watch as a fee for the trouble and that his remaining trinkets be divided among the coroner's jury. A letter was left addressed to F. R. Stephens, of San Francisco, in which Foster stated he had determined to commit suicide and had been in hard luck ever since the earthquake in San Francisco. He left two cents in his letter to the coroner to post the letter.

Sends Her Children to Steal.
Milwaukee.—Amanda Schleuter, 3 years old, and Otto, aged ten, kept their family from starving by stealing provisions from neighboring grocers. They were taught to do it by their mother, who admitted guilt in court but said that the father did not furnish money to support the family and she could not see the children starve. The father, Ludwig Schleuter, lived well and grew fat on the provisions purloined by the children.

Deer Will Be Plentiful. *
Marquette.—Hunting of all kinds will be better than ever in Marquette county this fall. Men returning from the woods report plenty of game. Deer, it is said, are to be as numerous as ever. Duck hunting is now in progress, but will improve with color or weather. Even bears are making themselves prominent in Marquette county this year, and a large number have been seen.

Chippewa Falls Man Chosen.
Chippewa Falls.—At the convention of the Modern Brotherhood of America held here, these officers were elected: President, D. H. Brown, Chippewa Falls; secretary, C. A. Willis, Eau Claire; Frank House, Milwaukee; and H. Brown, Chippewa Falls and D. Hoffman, Frederic, were elected delegates to the supreme convention: Omaha, on October 5.

International Wedding at Racine.—Rev. R. O. Hindley, of St. Stephen's church, officiated at the wedding of Miss Ella Churchill Hyde of Darenport, Ia., and Arturo Tacco, of Porto Rico. The groom, who has been in America in the interest of a fruit company, formed the acquaintance of his bride, who was trained nurse, and who has been in this city for three months.

New Factory for Racine.—Henry Harman, of Decatur, Ill., is negotiating for a site for the recently organized American Tannery company, with a capital stock of \$100,000. An option was secured on land on the Rapids road. If established, large factory buildings will be erected and 200 employees engaged at the start.

St. Croix Falls Has Boom.
St. Croix Falls.—Unprecedented activity marks the present season here. The foundation stones for a greater St. Croix Falls are being laid. Plans and developments are being pushed in all lines. The new electric generating plant now in course of construction will have power on tap by fall.

Break Jail with Wooden Keys.
West End.—During the absence of Sheriff Adam Held, of Washington county from the city, three men confined in the county jail escaped by the use of wooden keys which they made out of a chair. All of the men are said to be desperate characters with criminal records.

Five Injured by Trolley.
 Racine.—A Milwaukee electric car struck a carriage on Washington avenue containing five persons. The carriage was wrecked and the following were injured: Mrs. P. Orcutt, internally injured, cut and bruised; Mrs. R. R. Birdsall, cut and bruised; three children negligently injured.

Severely Hurt by Robber.
Jefferson.—Emily Klippert, the night operator in the local telephone exchange was severely injured by a robber who broke into the exchange. When the girl recovered consciousness she crawled to the switchboard and notified the police.

Fear Typhoid Epidemic.
Janesville.—Several cases of typhoid fever have been found in one of the most crowded tenement districts of the city and an epidemic is feared.

Remains in National Order.
Oshkosh.—Oshkosh members of the order of United Workmen have, by majority vote, decided to stick to the national organization and pay the increased rates. The order has a membership of several hundred here.

Burglars Get Seven Years.
Jefferson—Judge Duwiddie sentenced John G. Miller and Frank Warner to serve seven years at Waukegan. They were convicted of burglary of a freight car at Watertown Junction July 16.

Coincidence in Fatalities.
Fond du Lac.—Christopher Edoin, 5 years old, dropped dead within a few blocks of a point where William A. draws fell off a bridge and was drowned. Both fatalities occurred about the same hour.

Appleton to Have Skat Club.
Appleton.—A movement is now on foot for the organization of an Appleton Skat club, which organization will make an effort to secure the next annual state tournament, which has a

REPUBLICAN STATE PLATFORM.

Madison, Wis., Sept. 26.—Following is the Republican state platform as reported to the convention at an early hour this morning:

THE REPUBLICAN PARTY OF WISCONSIN.
 "We, through its representatives assembled in accordance with the provisions of the primary election law, affirm its adherence to the principles set forth in the Republican state platform of 1902 and 1904."

MODIFICATION OF THE TARIFF.

"We heartily endorse the administration of President Roosevelt."
 "We adhere to the Republican doctrine of protection to American labor, but believe in the readjustment of tariff schedules in all cases where protection is employed for the benefit of capital to the injury of the consumer and the workman."

TO ENCOURAGE IMMIGRATION.

"Realizing the great opportunities existing within our state for the farmer, merchant, the manufacturer and the homemaker, we believe a legislative provision should be made for the purpose of calling these opportunities to their attention in an official manner."

AMENDMENT OF CONSTITUTION.

"We favor amending the constitution whenever necessary to permit the enactment of laws which shall best accomplish the details above mentioned."

ENDORSEMENT OF LA FOLLETTE.

"With these declarations, the Republican party consistently appeals to the voters of Wisconsin for support, and points to its record in the past years as evidence of its good faith and a guaranty of performance of its promises in the future."

WE ENDORSE AND APPROVE THE PAST ADMINISTRATION OF GOV. ROBERT M. LA FOLLETTE.

"We endorse and approve the past administration of Gov. Robert M. La Follette as a conspicuously progressive, honest and economic, and point with pride to his advocacy of a faithful compliance with party promises made to the people of Wisconsin in the past, and we especially point out, among the important measures secured during his administration, and the laws affecting primary elections, the state railway commission and equitable method of railway taxation, the law prohibiting improper legislative lobbying and other laws of great value to the people of Wisconsin."

WE APPROVE THE WORK RECENTLY DONE IN CONGRESS TO SECURE SIMILAR LEGISLATION AND WE URGE UPON OUR SENATOR AND REPRESENTATIVES IN CONGRESS TO JOIN IN A UNITED EFFORT TO SUPPORT SUCH LEGISLATION AS WILL INSURE IN NATIONAL AFFAIRS THE SAME REFORMS AS HAVE BEEN ENACTED INTO LAWS IN WISCONSIN AND HERETOFORE AND NOW RECOMMENDED BY THE PLATFORMS OF THE REPUBLICAN PARTY IN THIS STATE.

COMMON SENSE, DAVIDSON.

"We endorse the administration of Gov. James O. Davidson and his businesslike conduct of the affairs of state. He has never faltered in his adherence to the principles of the party as expressed in its platform of recent years and a continuation of his administration assures a continuation of the reforms so auspiciously begun."

REGULATION OF CORPORATIONS.

"We pledge ourselves to the enactment of a law providing for the regulation of rates of service of all public service corporations similar to that now exercised over railroads. The same reasons exist for controlling the rates of water, electric light, gas, telephone, telegraph, and street railway companies, and other public service corporations as for controlling transportation rates."

LEGISLATION SHOULD BE ENACTED MAKING IT THE DUTY OF THE RAILROAD COMMISSION TO ASCERTAIN THE VALUE OF THE PROPERTY OF ALL SUCH CORPORATIONS TO INVESTIGATE THEIR CHARGES AND SERVICES, AND WHENEVER AN UNREASONABLE RATE FOR SERVICE IS FOUND TO EXIST TO ORDER THE SUBSTITUTION OF A REASONABLE RATE OF SERVICE IN LIEU THEREOF.

TO REGULATE STOCK EXCHANGES.

"We pledge ourselves to the enactment of a law providing for the regulation of the issue of stocks and bonds of all public service corporations, giving to the Wisconsin railway commission supervisory control over the same, and by appropriate provisions preventing the issue of any such stocks and bonds, except for actual value."

WE FAVOR THE ENACTMENT OF LAWS FOR THE REGULATION OF THE BUSINESS OF LIFE INSURANCE WHICH SHALL PROVIDE FOR THE FULFILLMENT OF THE OBLIGATIONS OF SUCH COMPANIES, THE PROTECTION OF THE INTERESTS OF WISCONSIN POLICYHOLDERS IN THE \$20,000,000 OF SURPLUS BELONGING TO THEM, A FAIR AND JUST APPROPRIATION.

PROTECTION OF RAILWAY EMPLOYEES.

"Railway employees are engaged in

a public service most hazardous in its nature. Legislation should be enacted providing that negligence of an injured employee shall not bar a recovery of damages by him if the jury shall find that the negligence of the railway company is greater than his own."

FOR INCOME TAX.

"We pledge ourselves to further the passage of the amendment of the constitution now pending, so as to permit the passage of a law imposing a graduated tax upon incomes with reasonable exemptions and the passage of such law as soon thereafter as possible in order to remedy among others the great evil now existing by reason of the present mortgage taxation law."

DEFECTS IN PRIMARY ELECTION LAW.

"We favor such amendments to the primary election law as will strengthen it and make it most effective as an instrument of government in the hands of the people."

PUBLIC OWNERSHIP.

"We favor the enactment of legislation which will enable any city or village that so desires to own public utilities and to apply the broad principles of eminent domain in acquiring existing plants at their true value."

STATE AID FOR HIGHWAYS.

"We favor the enactment of appropriate legislation at the earliest practicable moment, extending state aid for the construction and improvement of the highways of the state."

CALIFORNIA'S VIEW OF PRIMARY.

George A. Van Smith, editorial writer for the San Francisco Call, has been in Madison this week gathering information regarding the working of the primary election law in the state. He will go from there to Milwaukee to see Mayor Becker, regarding the victories obtained there as a result of the primary law in Milwaukee and will return to San Francisco today. For three years he was a political writer at Washington.

The Republican party of California has pledged itself to obtain legislation favoring the primary election law. The "Call" is in favor of the law and has sent a correspondent into the middle west to study the matter. Van Smith is familiar with the workings of the law in Minnesota and came to Madison to confer with politicians. He says the surprising thing about the law is that prior to the passage of the primary law in Wisconsin no more than 5 per cent of the people attended the caucuses. From the result of the recent state primaries, he estimates that 40 per cent of the voters were out.

His main criticism of the Wisconsin law is that it permits a voter to pick out what ballot he wants to vote regardless of past political affiliations. Under our system a democrat can vote in the republican primaries if he does not attempt to participate in the democratic primaries.

His second objection is that our law does not permit the rotation of names on the ticket. The injustice which is done in this connection was pointed out by John J. Kempf. People are prone to vote for the first name on the ticket, if they know none of the candidates.

SLEEP WALKER TAKES A BATH.

An amusing story escaped our notice last week and it is of a sort to print now, even if it is a week old. It seems that the camping party up the river of which mention has been made before, were out in a boat fishing, that is, they were all out with the exception of the only married man in the crowd. He had lain down after supper and had fallen asleep. When he awoke he realized that it would perhaps be better for him to go to his tent and fetch the sleep which weighed down pretty heavy and he thereupon walked out of the cottage and started for his bunk. He wasn't very wide awake and although he did not know it, his idea of the location of things was somewhat confused. He thought that he was going to his tent but instead walked out on the pier where the boats land and off it into 10 feet of water. At this time of year, there is a chilliness to the river and when the sleep walker felt it all drowsiness fled. The yell that went up from the water echoed across to the other shore and then back again. It brought the boat load of boys and girls in a hurry and the screams of laughter that follow their arrival on the scene were perfectly natural. Dry clothes and a warm fire soon brought things back to normal conditions.

RHINELANDER BOAT CO.

Rhineland, Wis.
 GENTLEMAN—Mr. ——— President of a cotton-mill at Colon, S. C.—he don't want to see his name in print—had two orders of 50 gallons of paint \$1.20 and \$1.25. Took the \$1.25 and got skinned. He'd got three quarters skinned if he'd taken the other.

The \$1.20 was full gallon; the \$1.25 was 15 per cent short. The full measure paint was adulterated 10 per cent; the short-measure paint was adulterated 45 per cent. Beware benzine in the oil, don't know how much.

Devote lead-and-sleeve wasn't sold in the town then.

It don't pay to monkey with paint.

Devote coats less than any of 'em; not by the gallon, of course; by the house and year. That's how to reckon it. Go by the name.

Yours truly

Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and worry and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by

Read About Indians and Outdoor Life.

In a little book that costs nothing. The book describes the Northwest, the land of the future. It is printed on the best of paper, is interesting, profusely illustrated and full of information. It is suitable for your own home, for schools or libraries. It describes the wonderful Yellowstone Park, the wild Billeroot mountains in Montana, the Cuenlat Indians almost unknown on the North Pacific Coast, the grand Columbia river scenery, the marvelous Puget Sound regions and Alaska. It costs but the postage required to mail it. It will be sent to any address for six cents. The book is "Wonderland 1906" published by the Northern Pacific Railway, and is for general distribution. Send six cents to A. M. Cleland, General Passenger Agent, St. Paul, Minnesota or as many times six cents as you wish copies, with proper addresses, and the little volume will be promptly forwarded by that gentleman. Don't wait! The book has an object to educate and inform the public about the Northwest, the region that Lewis and Clark explored and made known to us. Help it perform its mission. #27-011.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Busard, Hubbard, Ill. This remedy is for sale by
